

When I was asked if I was willing to give a testimonial for my Aloha System, I jumped at the opportunity. I have been using Aloha at all my locations for many years and they have without a doubt helped me manage my businesses to be more profitable. Equally important, I have always been a fan of the support I have received from Computer World. I know there are many systems out there, but the combination of NCR's Aloha software and Computer World's support provide all I will need as long as I remain in this business.
