Ronald Breaux
Computer World, Inc.
P.O. Box 490
Scott, LA 70583

Dear Mr. Breaux

Thank you for your time as you may consider this testimonial to be helpful for you and the combined efforts of Computer World and Radiant Systems going forward in the IT business. The hard work by you and your team gives businesses, such as ours, the flexibility and opportunity to focus on business as it relates to sales, profits and company growth. I took the liberty of sharing some key points of interest that you too may share throughout your organization.

The professionals at Computer World are knowledgeable and experienced in the IT business and we can always trust them to provide the most efficient solutions and the highest quality products to resolve any technology problems. Our confidence continues to build as Coyote Blues moves forward in growth and brand recognition. I feel the restaurant industry should be aware of products available in the IT world, via Computer World and Radiant Systems, which could provide for better margins and at a reasonable price includes the following:

1. POS Systems - Reliable with user friendly functions for speedy transactions
2. Configuration Center - Data storage software and a must for multiunit operations
3. Insight - Reporting software which can be accessed from a remote location
4. Stored Value - Software for the purchase and redemption of gift cards
5. Restaurant Guard - Security software

The aforementioned software has served Coyote well; however, Aloha Restaurant Guard (ARG) is a piece of the puzzle that continues to prove itself worthy. As you already know, ARG is a loss prevention tool that provides us with the "highest level of transaction intelligence" and this

software produces weekly reporting that gives restaurateurs the ability to identify theft and the "necessary support data to put a stop to it". ARG is in all Coyote locations and we thank you for introducing this valuable software to the business. I understand ARG will soon have the capability of alerting me, via cell phone, in real time. SIGN ME UP! How did we manage all these years without ARG? As one bad apple may spoil the bunch, ARG has eliminated the bad apples.

Coyote Blues Fresh Mexican Grill is a small company of restaurants with 4 locations (soon to be 5) and is eager to expand with Computer World and Radiant Systems at our side. Today's economy continues to deliver many challenges and it's because of people like you and all involved that Coyote Blues can continue to execute and deliver great food along with concentrated service. I am grateful to write on your behalf and we look forward to the continued partnership with Computer World and Radiant Systems as WE take Coyote Blues to the next level.

Sincerely
